Stylex 40

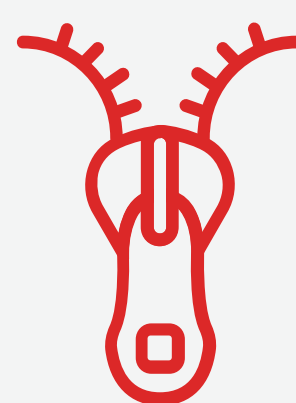

ClimaLatekss

Cotton

Kaktuss

Service life of at least 8 years

Zippered case, removable, easy to care for

Permissible load up to 120 kg (per one part of the mattress)

The bio mattress has different levels of comfort, which will surprise those who like to experiment, as well as those who find it difficult to find the right mattress. The effect of a mattress with two sides is manifested due to a combination of fillers of different hardness. ClimaLatex is a soft, elastic material. Cactus, on the contrary, is strong and light. In the central part of the mattress, we use Stylex40 filler-a durable dense material. The combination of all three fillers guarantees the quality of the product.
