

Eliza Original

25 cm

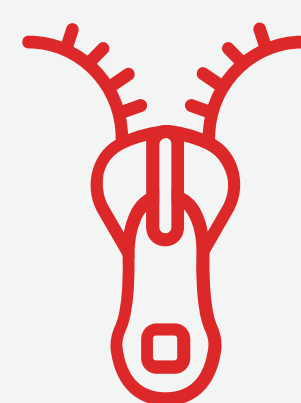

Cover - natural mattress fabric (cotton fabric not less than 60%)

Service life of at least 5 years

The mattress can be turned over (both sides are the same)

Zippered case, removable, easy care

Permissible load up to 120 kg (per one part of the mattress)

The Eliza Original mattress is a medium-stiffness mattress based on an orthopedic spring block by Hofmann (Germany) with springs with a wire diameter of 2.4 mm made of durable steel. The mattress will provide optimal support for the spine during sleep. The spring block is protected on both sides by a reinforced thick protective layer so that the springs cannot pass through the filler. The spring block is reinforced with a polyurethane part. Both sides are the same for the mattress, made of high-strength Ortofoam material (dense elastic foam filling). Due to the used filler, mattress is dust mites and other parasites free.
